

Action Taken Based on Curriculum Feedback Report

Feedback system based on curriculum is effectively implemented and analysed for imparting better academic credentials to the students. As part of this, feedback is collected from different stake holders viz. students, teachers, parents and alumni about the various aspects on curriculum/syllabus and its effective updating, suiting the need for its revival. The report received from collecting feedback and its analysis help to make good strides in teaching and learning. In the context of the reviewing and restructuring of the syllabus and curriculum, the faculty members of our college who are members of various Board of studies take up the views as reflected in the feedback and suitable changes are incorporated as per the present system demands. Feedback collected from the students are collected, consolidated by the committee meant for it and is handed over to respective departments. Based on the report received various department level meetings were convened and relevant measures are implemented. Constructive recommendations are put into practice during the coming academic year. Since two of our faculty members are represented in the syndicate and the senate of the University, Same way the report received from different stake holders such as teachers, parents and alumni were also gone through deliberations and possible points that can be included in the curriculum revision was implemented. Through this way curriculum revision and implementation were effected in the college.
